Hackett (distiller) of Midleton, who was afterwards Clerk to the Cork Harbour Commissioners, and died between the 3rd and 10th August, 1864.

No trace of his burial place in the obituary columns of the *Cork Constitution* of that date can be found ; perhaps some other member may be able to supply required information. Mr. Cremen would wish to aid those engaged in the same work as ourselves in other lands.

Ballinlough Road, Cork.

BOOKS WANTED.

(1). *History of O'Mahony Septs* by Canon O'Mahony, mentioned in " Notes on Kinalmeaky Barony " given in last No. of *Journal of the Cork Historical and Archaeological Society.*

(2). *Kerry Magazine* ; and

(3). Works on Kerry by Miss Stokes.

WM. LONG (Member of Society), Ballyferriter, Dingle.

Reviews.

Journal of the County Louth Archaeological Society. Vol. VII. 1930. No. 2. Dundalk : Wm. Tempest.

This Nunmer contains, as is usual with the Co. Louth Journal, articles of great importance. Amongst them we may put the splendid air map of the Dorsey entrenchment, and the full description of the Dorsey by H. G. Tempest.

This remarkable fortification has not been so minutely noted by previous writers, who are freely cited.

Much valuable and singular information is contained in the *Fottrell Papers*, edited by the Rev. L. P. Murray, with *inter alia* references to early Cork Dominican foundations.

The Old Title Deeds of County Louth now being catalogued by the Rev. Mr. Murray is a work of concern to antiquaries, lawyers, genealogists, etc. The work taken up by Mr. Murray ought to be followed by writers in the other counties of Ireland.

A Perforated Stone Pickaxe from North East Louth, its position in Irish Archaeology, is the title of a very learned illustrated paper by Mr. L. S. Gogan, Deputy Keeper of Irish Antiquities in the National Museum, Dublin. His papers should be read by all who are interested in the sequence of the manufacture of their weapons by the neolithic and bronze age peoples.

The Records of County Louth, by Rev. Canon Leslie, so full of curious side-lights upon local history, makes us share with him the hope that the complete records of the three parishes, Ardee, Drogheda and Dundalk, saved happily from the general destruction may be published before long.

The continued papers, *Irish Diary of the Confederate Wars*, and a *Callendar of the Register of Primate George Dowdall*, by the Rev. L. P. Murray, Reviews, Variae, Annual Report, etc., complete a number of especial interest.

Wiadomosci Archeologiczne. Bulletin Archeologique Polonais. Varsovie rue Agrikola, 9. Musee Archeologique Polonais.

The official report (tom, X) of the Museum for archaeology at Warsaw is a testimony to the great work done by students of archaeology in Poland.

The volume contains 312 quarto pages full of records of finds from various sites of antiquity, with extensive descriptions of these discoveries, and all that relates to the geography and geology of the districts. A considerable portion of the Journal is devoted to a classification of weapons and implements used in paleolithic, epipaleolithic and neolithic times and a union of neolithic instruments with ceramics. The illustrations in these sections are very fine and very important, with complete
